

PAC Roll Splitters

Automatically Remove Plastic Film, Foil and Paper Waste From Cardboard Cores

- Safeguard personnel with OSHA-approved safety system
- Uncover cost savings by reusing material and cores, reassigning personnel
- Speed the waste removal and recycling processes
- Manage roll sizes up to 72 inches in length

PAC Model 30 and Model 72 Roll Splitters

Put an end to the dangerous razor-cutting and chopping methods your people use to remove paper, film, foil, nonwovens and other waste materials from their cardboard cores. In as little as eight seconds, our PAC Roll Splitters automatically separate defective and/or out-of-spec material from the core, safely and cleanly removing it for easy recycling and reclamation. Since there is no contact with the core, risk of fiber contamination is eliminated, waste purity is assured and the cores may be reused. One-person operation is smooth, safe and simple.

Cuts from razor knives are the cause of approximately 153,000 workplace injuries a year in private industry alone.* Many of these result from using hand-held razor knives to manually cut plastic film and other materials from cardboard cores, a dangerous method that cuts into production, unnerves employees and raises red flags among safety inspectors. Manual methods also require 30 minutes or more per roll while PAC roll splitters complete the job in eight seconds.

*Bureau of Labor Statistics

Model 72 Roll Splitter

Model 30 Roll Splitter

PAC Roll Splitters combine a slate of safety advances for maximum personnel protection:

- Safety interlock on safety surround – gate must be closed to permit operation
- Safety interlock on mandrel locking device – roll must be secured to permit operation
- Full guarding around knife – exposed only during operation
- Knife Holder Safety Pin – must be removed to operate machine
- Two-hand operating control panel
- See-through safety cage – safely oversee roll splitting during operation

ROLL SPLITTER MODEL	MAXIMUM ROLL LENGTH	MAXIMUM ROLL DIAMETER	FOOTPRINT
Model 30	30"	15"	52" long x 42" wide
Model 52	52"	40"	93" long x 94" wide
Model 62	62"	40"	103" long x 62" wide
Model 72	72"	40"	116" long x 60" wide

Your PAC Roll Splitter is guaranteed to work as specified. With our experience, resources and passion for excellence, we stand proudly behind our engineering expertise and manufacturing skill.
